

Efficiency. Accuracy. Accountability. Savings. Control. Insight. You understand the far-reaching benefits of a comprehensive, automated time & attendance solution. The complexity of your labor rules, attendance policies and organizational structure demands a truly enterprise-class software. However, obstacles like upfront capital investment, upgrades, infrastructure and ongoing IT labor burden have prevented you from leveraging the benefits of this powerful technology. Until now...

***Galaxy's high-value, "TimeStar™ On-Demand" subscription brings real-time labor management within your reach.***

**Streamlined, Not Stripped-Down**

With you in mind, Galaxy Technologies employed over a decade of time and attendance "best practices" expertise and streamlined the processes using the highly efficient Software-as-a-Service (SaaS) delivery model. The resulting product, TimeStar™ On-Demand, is a revolutionary new labor management solution offering robust and flexible functionality at an exceptionally low cost of ownership. TimeStar™ On-Demand is implemented within 10 days, has zero-dollar setup costs, no contractual obligations and operates on straightforward per-employee per-month subscription pricing.

**Web-Based to Empower Your Workforce**

Completely browser-based, with intuitive user interface and "any-time/anywhere" access, TimeStar™ On-Demand empowers employees, supervisors and management within your workflow. Offering your employees self-service time-off requests, time entry, review/signoff, labor allocation and scheduling increases overall efficiency by eliminating labor-intensive manual processes. With TimeStar™ On-Demand supervisors have access to real-time labor data with an employee Status Monitor, immediate web/email alerting and a wide variety of ad hoc labor reports. By providing your supervisors and administrators with the tools to monitor attendance, respond to exceptions and efficiently participate in approvals you've instantly increased productivity, achieved accountability and given your company the ability to manage overtime costs before they occur.

**Outsourced Risk, Integrated Data**

Don't burden your IT staff or your budget with system management, costly hardware and software upgrades. Galaxy's Stress-free SaaS model will allow you to focus on managing your workforce, not your IT infrastructure. TimeStar™ On-Demand is hosted in a world-class, multiple-Tier 1 datacenter with 24x7x365 monitoring, fully redundant layers of connectivity and physical/network security. Galaxy's experienced engineers provide maintenance, backup, disaster planning and security auditing to ensure mission-critical availability and integrity of your labor data.

Outsourcing the complications and risk of Human Resources Management IT through subscription licensing does not mean you sacrifice tight integration with your back-office and payroll applications. TimeStar™ On-Demand fully supports data integration with leading packages including:

Abra HRMS Suite  
ADP  
Ceridian  
CompuPay  
Great Plains  
JD Edwards  
MAS 90/200/500

Microsoft Dynamics  
Millennium  
PayChex  
Sage Payroll Services  
Timberline  
UltiPro  
Plus flexible ASCII exports and more

**All TimeStar™ On-Demand implementations have a seamless conversion path for transitioning to in-house hosting/traditional licensing.**
